2

We will deploy a qualified information security team to triage the event.
Is the security event an incident?

3

If the security event is an incident that may result in damage or risk to information security assets or operations, then you will want to contact a Data Breach Attorney.

4

Debrief with the Data Breach Attorney who will want to discuss:

- The date(s) of the incident
- The nature of the incident
- Do you have stand-alone cyber insurance?
- Fact finding and evidence collection, if any to date, by the internal team.

5

The Data Breach Attorney will help you coordinate with external stakeholders.

6

Key external stakeholders in an incident response include:

- Data Breach Attorney
- Insurance Broker
- Insurance Carrier
- Defense Attorney
- Information Security Investigator and Forensics Specialist
- Payment Forensic Investigator
- Customers
- Shareholders
- Regulators
- Law Enforcement
- Cyber Crisis Management
- Mail House and Call Center
- Identity or Credit Monitoring
